

## **Sean Rada**

### **Deputy Director, Technology Solutions**

Sean is an innovative problem solver with a passion for building tech solutions with impact - from his customers to colleagues.

After graduating college in 2009, he became a self-made entrepreneur in the mobile app world before joining Rigil in 2012 as their first in-house iOS developer. He grew quickly, becoming a full-stack product developer, project manager, and client advisor before joining the Leadership Team as Deputy Director, Technology Solutions in 2019.

In his role, he is responsible for leading the company's software and product development while staying abreast of emerging technologies for customer and internal use. Under his leadership, Rigil has grown their product offerings across federal and commercial organizations. He was the lead developer for our StrataGem platform, which was recognized for transforming learning in the aviation space.

Sean has a Bachelor's degree in Systems Engineering from the University of Virginia, and resides in Washington, D.C.
